EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone communication with Attorney Bruce Prout on August 31, 2006.

The application has been amended as follows:

Claims 12-43 are cancelled. The remaining claims are 1, 5, and 8-11.

The following is an examiner's statement of reasons for allowance: the references in combination does not teach and suggest a reasonable motivation for the combination of features (1), (2), (3), and (4) of claim 1. Specifically, the references does not teach the monitor light as being received from the light that is generated in an optical waveguide connection portion of an optical waveguide and passed through the substrate. Therefore, claims 5, and 8-11 are allowable by virtue of dependency on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
